Starts July 23, Monday, Tuesday, 9.30am-2.30pm for 10 weeks

Commitment needed to attend the full course

Decoding Dyslexia

What we offer.

- Up to 40 hours learning time
- Small group with self-paced learning
- An understanding and knowledgeable tutor
- Modern computer software to assist learning

Benefits to you.

- Open up today's world.
- Gain independence from friends and family
- Increased confidence and ability learning

Dyslexia can be diagnosed at any point on a line (continuum) between slight to severe indications. It can show itself as a lifelong difficulty or frustration with learning. The new programmes that we have invested in can assess adults and give them an indication of where they sit on that line.

The programme, along with personal tutoring in a small group situation, can assist adults to understand and manage their Dyslexia. It is not something that is going to go away but you can learn strategies to manage it more efficiently in your life. Contact us for options.
